The Authority accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies of the Authority. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's ability to pay, the Authority utilizes the generally recognized Federal Poverty Guidelines, but also includes certain cases where incurred charges are significant when compared to the patient's income. These charges are not included in net patient service revenues. The costs and expenses incurred in providing these services are included in the Authority's excess revenues (expenses) in the statements of revenues, expenses, and changes in net position.
